live your life.

Your own custom orthosis

Our custom orthoses work by using strategically placed reinforcements, which position the body into improved postural alignment. Additionally, each custom orthosis can be further customised by colour or by pattern. Handmade in Cornwall by our talented team of machinists and cutters, our form-fitting orthoses answer the unique needs and requirements for your condition and body.

To achieve our high-quality prints, we use sublimation printing techniques to transfer your selected design onto your custom orthosis. All our printing and orthoses are handmade, making your orthosis one of a kind.

Swatch Designs

Our printed fabrics offer patients a greater degree of customisation, encouraging them to want to wear their orthoses. The following patterns are available to choose from:
